## West Virginia DOT District 2 Landslide Remediation Lincoln County, West Virginia

---

Client: West Virginia Department of Transportation - District 2

**Key Personnel:**

Mike Vogt, PE (PM)  
Kevin White, PE  
Mike Vogt, PE  
Peter Narsavage, PE  
Dan Allbright

**Project Cost:**

\$6 Million Construction

**Year Completed:**

September 2015

**E.L. Robinson's Role**

Prime Consultant  
Design  
Surveying  
Geotechnical Investigation

This project was in response to nineteen (19) landslides in Lincoln County that affected the highway system maintained by the West Virginia DOT. The landslides were caused by a flooding event that occurred on March 3rd and 4th, 2015. E.L. Robinson Engineering's (ELR) tasks included mapping, core boring lay out, bid document development, geologist directed field drilling operations, boring log development, pile lagging retaining wall design and plans and specification development for each site.
