

Mountaintop Beverage - Utility Upgrades

Client: Morgantown Utility Board

Project Location:

Monongalia County, WV

Key Personnel:

Eric Coberly, PE
Randall Lewis
Todd Ganes
Joey Jude

Project Cost:

\$6,500,000

Year Completed:

2021

The Morgantown Utility Board hired E.L. Robinson Engineering to complete the water and sewer extension project, which provided utility service to the Mountaintop Beverage Facility located within the Morgantown Industrial Park.

Specifically, the project includes the construction of a 1.3 million gallon water storage tank, a 750 gpm booster pump station and approximately 5,650 linear feet of 12-inch diameter water distribution mains including necessary valves, fire hydrants and meters. The sewer portion of the project includes 6,000 feet of gravity sewer, railroad crossings, a new sewer lift station, 1,500 feet of force main including a 600 foot river bore.

ELR provided preliminary engineering and final design, preparation of all necessary permits, right of way mapping, and bid administration.
