Project Cost:

\$6.5 Million Construction

Year Completed:

On-Going Construction

The Morgantown Utility Board is proposing water and sewer extension project to provide utility service to the proposed Mountaintop Beverage Facility planned for construction in the Morgantown Industrial Park located in Monongalia County, West Virginia.

Specifically, the project includes the construction of a 1.3-million-gallon water - storage tank, a 750 gpm booster pump station and approximately 5,650 linearfeet of 12-inch diameter water distribution mains including necessary valves, fire hydrants and meters. The sewer portion of the project includes 6,000 feet of gravity sewer, railroad crossings, a new sewer lift station, 1,500 feet of force main including a 600-foot river bore.

E.L. Robinson will provide preliminary engineering and final design, preparation of all necessary permits, right of way mapping, bid administration, construction engineering and project administration.
